4/11/97

Dear Jim,

Meda will be welcome, too.

I do not have to ask McKnight to know that will be true with them and that if he is in town the supper invitation stands.

If she is willing she can save you time. She can do the copying for you. ESpecially if you want to copy anything filed in the cellar, the steps take time.

You should be here Saturday before I retire.

You can come as early as you'd like Sunday and although I have blood tests Monday mornings I'll be home by 9.

If you've the time I suggest you make a list of what you want to do and see because finding what you do not expect can divert and take time.

Please remember me to Judy, too.

We look forward to your coming,

Harold
